

Road Safety Policy

When walking along the road:

- always walk on the pavement or path if there is one - never stray on to the road
- walk as far away from the kerb as possible
- where there is no pavement, walk in single file on the right side of the road facing the traffic

Using crossings

- always use the Green Cross Code
- wait at the kerb by the crossing so that drivers know they want to cross
- at a signal crossing, press the button and wait for the green man to light up and never walk out while the red man is showing, even if the cars have stopped or other people are crossing
- always walk over the actual black and white stripes of a crossing - many accidents happen around crossings
- never cross the road while using your mobile phone or while listening to music on head phones
- stay alert at all times, remember cyclists and motorcyclists use the roads as well as drivers
